WITH OUR EXPERIENCE AND GOOD TASTE WE WILL RAISE YOUR PROJECTS ON ANOTHER LEVEL

We take our work very seriously to guarantee a unique result.

José Carlos Reyna
AKA VJ Gorilla

WORLD WIDE VISUAL ARTIST
BASED IN BALEARIC ISLANDS SPAIN.

With more than 15 years of experience in the design, planning, assembly and operation of stages for electronic parties, urban music concerts and shows in general in Peru.

From designing 3D scenarios, creating lighting environments, creating visuals but above all maintaining a safe work environment to being able to consolidate a work group are the objectives when being part of each project.

As it is in this profession where technology advances every day, I am a fan of always being on the lookout for new ways to use the equipment in order to take advantage of its greater performance to achieve incredible results.

Currently I am in a training process in the use of MA2 and MA3 consoles having taken my first intensive training at STONEX in Madrid in June 2023 and in February 2024 at the DiiVant lighting school where I have been able to perfect the technique of use, show creation, creation of fixtures and sequences and in operation.
